Current and past teaching responsibilities: (courses and topics)

Reference to the availability of a teaching portfolio should be included.

I instruct residents and medical students in a daily basis through clinical teaching in both pre and postoperative clinics, on call supervision, and intraoperatively during surgery. I also participate in instruction through our scheduled didactic weekly conferences (at least twice/week) including grand rounds, corequest review of important topics in plastic

surgery, review of the current literature (journal club), anatomic dissections and morbidity and mortality assessment.
